PROFESSIONAL SUMMARY

Flutter Developer with 1+ year of professional experience building cross-platform mobile applications for iOS and Android using Flutter and Dart. Skilled in BLoC and Cubit state management, RESTful API integration, Firebase, and Clean Architecture design patterns. Experienced with CI/CD pipelines, Agile methodologies, and UI/UX design tools including Figma and Adobe XD. Passionate about delivering high-performance, user-centric mobile experiences with scalable, maintainable code.

WORK EXPERIENCE

Flutter Developer | Forgotten Mines

October 2024 – Present

United States – Remote

- Design and develop cross-platform Flutter (Dart) mobile applications for iOS and Android with a focus on performance, scalability, and user experience.
- Integrate RESTful APIs and third-party services using Dio for seamless backend communication and efficient data flow.
- Implement CI/CD pipelines to automate build, testing, and deployment processes, reducing release cycle time.
- Apply BLoC and Cubit state management patterns to maintain clean, predictable application state.
- Collaborate in an Agile/Scrum team environment, participating in sprint planning, stand-ups, code reviews, and retrospectives.
- Optimize app performance, memory usage, and widget rendering for smooth cross-platform experiences.

Flutter Developer Intern | e-RAMO For Digital Solutions

Sep 2024 – Oct 2024

Cairo, Egypt

- Developed a full-featured e-commerce mobile application using Flutter with Clean Architecture principles.
- Implemented BLoC state management pattern ensuring separation of concerns and testable business logic.
- Integrated REST APIs, push notifications, and localization features for a multi-language user base.
- Delivered responsive, pixel-perfect UI components aligned with Figma design specifications.

PROJECTS

Safety Point Academy | [Google Play](#)

Freelance

A cross-platform mobile application delivering professional safety training courses through a modern and intuitive mobile experience.

- Developed the full application using Flutter (Dart) for iOS and Android platforms.
- Implemented Cubit state management for clean and efficient UI state handling.
- Integrated and consumed RESTful APIs for backend data communication and real-time content delivery.
- Contributed to overall app architecture design and performance optimization.

I'm In — Educational Mobile App | [Google Play](#)

Freelance

An educational app enhancing student engagement by providing easy access to academic resources, event updates, and personalized push notifications.

- Developed with Flutter using Clean Architecture and MVVM pattern.

- Implemented Firebase push notifications for real-time event and announcement delivery.
- Designed and built intuitive UI/UX flows using Figma wireframes.

Food & Grocery Supply Platform — [التقوى](#) | [Google Play](#)

Freelance

A comprehensive B2B supply platform connecting food and grocery suppliers with supermarkets, wholesalers, and bulk distributors.

- Built with Flutter targeting cross-platform deployment on iOS and Android.
- Developed scalable product catalog, order management, and supplier communication features.

e-RAMO Store — E-Commerce App | [Google Play](#)

e-RAMO Digital Solutions

A production-grade e-commerce mobile application with Clean Architecture, BLoC state management, and a fully responsive UI.

- Implemented product browsing, cart, checkout, and user authentication flows.
- Integrated REST APIs and achieved responsive design across multiple screen sizes.

War To The Core — Arcade Game Website | [wartothecore.com](#)

Forgotten Mines

Official promotional website for an arcade game, built with Flutter Web for cross-platform browser compatibility.

- Developed responsive Flutter Web application with smooth animations and interactive UI.

EDUCATION & TRAINING

Flutter Development Diploma | [Route IT Center](#)

Dec 2023 – Apr 2024

Cairo, Egypt | Intensive Flutter & Dart mobile development program

Flutter & Dart Complete Development Course | [Udemy \(Tharwat Samy\)](#)

2023

Android App Development with Flutter & Java | [Ministry of Communications](#)

Dec 2020 – Feb 2021

Bachelor of Science — Computer Science | [New Cairo Academy](#)

Sep 2018 – Jul 2022

Cairo, Egypt

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, iOS, Android, Cross-Platform, Flutter Web

State Management: BLoC, Cubit, Provider

Architecture: Clean Architecture, MVVM, MVC, Repository Pattern, SOLID Principles

APIs & Backend: RESTful API Integration, Dio, HTTP, JSON Parsing, Firebase, Firestore, Firebase Auth, FCM

DevOps & Tools: Git, GitHub, CI/CD Pipelines, Azure DevOps, Agile, Scrum

Design & UX: Figma, Adobe XD, Responsive UI, Material Design, Custom Animations, Localization

Languages: Arabic (Native), English (Intermediate), German (A2)
